

# Sample Goals & Activities

This document suggests sample goals and activities that you may find helpful when planning your Amber Flag journey.

Many ideas are based on the wonderful contributions of previous Amber Flag awardees. You can use them as inspiration for developing the mental health goals you feel would benefit your community most (having conducted your audit).

Some activities are more suited to younger children, while some are more suitable for secondary students, adults or staff. Please tailor activities to suit the needs and abilities of your community.

Holding either a Mental Health Awareness Day or Wellbeing Week is a required goal for both New and Renewal Applicants.

Holding a fundraiser (or joint fundraiser) for Pieta is a required goal for New Applicants.

All applicants must set one additional mental health goal.

While a Mental Health Awareness Day or Wellbeing Week is a required goal, the content of that day or week can be unique to your school or organisation. Similarly, with additional mental health goals, you can adapt activities or create your own. The aim is to promote positive mental health in a way that best meets the needs of your community.

Please see the Amber Flag Information Booklet for further information.
